The most delightful aspect of summer

A close-up photograph of a vibrant blue bell-shaped flower, likely a gentian, in a mountain meadow. The flower is the central focus, with its petals showing intricate patterns and colors. The background is a lush green meadow with scattered rocks and distant mountains under a clear blue sky. The text "Discover summer in the Alps!" is overlaid on the right side of the image.

Discover summer in the Alps!

The summer shows its true greatness here

The sunny Brixental, with the charming villages of Brixen im Thale, Kirchberg and Westendorf, lies in the middle of the enchanting mountain world of the Kitzbüheler Alpen. With its natural tributary valleys facing to the south, the Brixental offers relaxation areas that can be experienced where are rarely found elsewhere. Those seeking experiences, sport and relaxation will find an abundant offering of possibilities here for discovering and enjoying the world of the mountain summer, because it is here that the summer shows its true greatness.

Cycle paths as far as the eye can see

Bike routes in the Kitzbüheler Alpen are a real challenge for go-getting mountain bikers. It's not for nothing that the region is the venue for one of the hardest international Mountain bike marathons. Yet it's not just mountain bikers who get their money's worth here – road racers, tourers, leisure cyclists and nature-lovers will find their own paradise in the Kitzbüheler Alpen.

Experience what it means to feel free

There are still locations which give one the feeling of what freedom means. Whenever it becomes quite still, only the bubbling and gurgling of the water can be heard which have become paths to the cycling routes. One is overwhelmed by indescribable yearning and the nature is so beautiful that one can no longer fix it in words because you are right in the middle of it. Discover the tributary valleys of the Brixental and simply feel free.

The victory over one's own id

The diversity of the various mountain forms in the Kitzbüheler Alpen is unbelievable as it is first found in gentle grass and then again in the imposing and steeply ascending stone mountains. Unbelievable is also the feeling of being right up on top. Whether mountain climbing or rock climbing, here in the Kitzbüheler Alpen, you will find Alpine friends and those who would like to find their ultimate personal happiness on the peaks. The victory over one's own id is decisive – the victory over the mountain is only the consequence of this.

The mountain experience for the entire family

Observe groundhogs, investigate nature, splash around in the water, pet animals, and climb up to tree houses – the mountain experience worlds of Alpinolino, Filzalmsee, the Spertentaler Kneipp water and many others in the Kitzbüheler Alpen also make hiking exciting for children.

In the kingdom of children

The backdrop couldn't be more perfect – meadows, forests, small mountain streams are transformed into Indian villages, magical forests and biological laboratories. The programme for children and families is abundantly filled with unforgettable experiences and adventures. Even the small ones can really have fun here.

H₂O for every taste

Idyllic lakes for bathing, swimming pools with giant slides and experience pools or simply only crystal-clear mountain streams and mountain lakes offer one the chance to cool off and provide a lot of fun on hot summer days. The purest water also flows from numerous sources and wells and the quality of the drinking water here in these parts is so high that daily requirements for important minerals are more than covered. Try them once – in the Brixental, even the water has a taste.

The centre for golf in the Alps

Golfers don't get an easy time of it here – they are spoiled for choice. With 4 fantastic courses in Kitzbühel and another 19 in the immediate vicinity, what's on offer in the Alps is unique. What makes a game of golf more unique still is the terrain, which is rich in variety - each individual course differs from the next, and of course there is also the impressive mountainscape of the Kitzbüheler Alpen as the backdrop.

A high the entire summer long

The event calendar is full of top events and summer festivals. Highlights such as the Brixental Mountain Lights, the Flower Corso in Kirchberg, the Kitz Alp Bike mountain biking marathon or the International Balloon Cup have long made a name for themselves and create a magnificent atmosphere year after year.

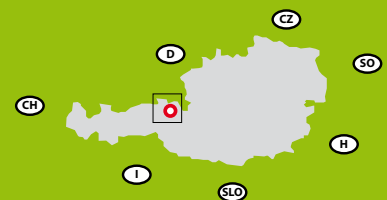

Centuries-old tradition

Tradition and old values are high on the list in the Brixental. For already more than 350 years, the farmers have ridden on Corpus Christi Day to the Schwedenkapelle in order to give thanks that the valley was not plundered during the 30 Years' War. A long tradition is also enjoyed by Brixental's marksmen, the music chapels, the Brixental Traditional Costumes Association, the cattle drives in autumn and the many culinary specialties, the recipes of which have been passed on from one generation to the next.
